Smartphone Integration

**Apple CarPlay™** - Connect Wirelessly or via USB
A smarter, safer and more fun way to use your iPhone in the car. Apple CarPlay gives iPhone users an intuitive way to make calls, use Maps, and listen to music with just a word or a touch.

**Android Auto™** - Connect Wirelessly or via USB
Android Auto was designed with safety in mind. With a simple and intuitive interface and powerful voice actions, it’s designed to maximize distraction so that you can stay focused on the road.

**HDMI™ Mirroring for Smartphones**
Display your smartphone screen on the KW-Z1000W’s display via an HDMI cable and third party adapter.

**Wireless Mirroring for Android Phones**
Wireless Mirroring for Android Solution for seamlessly displaying and controlling your smartphone apps on a screen without cables on select Android devices. *Selected models only

Some features, applications, and services are not available in all areas. For details, see: www.apple.com/ios/feature-availability/#applecarplay

Some Features, applications, and services are not available in all areas. For details, see: www.android.com/auto

**iDatalink Maestro Compatible**
KW-Z1000W is compatible with iDatalink Maestro RR and RR2 (sold separately)*. Both Maestro modules provide seamless retention of factory safety and camera systems, steering wheel controls and add performance gauges in most modern vehicles. In addition, the RR2 provides three programmable outputs that can be used to activate things like a winch or a light bar from KW-Z1000W’s on-screen controls. Radar detector information can also be displayed on the screen when used with a compatible KDI or ESCORT radar detector system.

**Big Widget**
**jvc portal app compatible**
Display images saved on your smartphone on the KW-Z1000W with JVC Portal App now available for both iOS and Android. You can set your favorite image on the wallpaper of the receiver and enjoy the slide show.

Large HD Display with Full Smartphone Connectivity.

**Large & High Definition Display (1280 x 720)**
The large-screen, 10.1” HD display is about 2.4 times higher resolution than the conventional WVGA panel. With this display, jagged edges are eliminated in the displayed image, providing sharp and vivid images. In addition, the color development increases, and the individual colors of the image become clear so you can enjoy high-definition images.

**Optical Bonding Technology**
The optical bonding technology minimizes the refractive light index by bonding the liquid crystal module and clear panel. It suppresses the reflection off the screen and maintains high visibility. In addition, since optical bonding does not have an air layer between the liquid crystal module and the clear panel, display visibility is not impaired by internal condensation, further enhancing its durability.

**Adjustable 3-way Display Position**
Fully adjustable display allows you to change the height, angle, and depth for easy vehicle fitment.

**4-Camera Inputs**
Enable users to add Front and Rear cameras along with an additional 2 front or blind-spot cameras, further enhancing driver safety and convenience.

**Dynamic GUI**
Various information including time, photos, album art images, or iDatalink Maestro™ and more, can be displayed on the home screen in a big, easy-to-view way. Swiping the monitor with two fingers lets you split the screen or change the information window.

**HDMI™ Mirroring for Smartphones**
Display your smartphone content on the KW-Z1000W’s display via an HDMI cable and third party adapter.

**JVC Portal App Compatible**
Display images saved on your smartphone on the KW-Z1000W with JVC Portal App now available for both iOS and Android. You can set your favorite image on the wallpaper of the receiver and enjoy the slide show.

Common Features

Multimedia Receivers

USB Mirroring for Android
Seamlessly display your Android phone on the JVC screen via USB. Touch control is supported from both screen and smartphone.

Key Customize
Lets you easily access frequently used functions. Two options are available.
1. Function Menu Customization
Functions registered in the Function Menu can easily be called up by simply pressing the “FNC” key.
2. Favorite Key
Press and hold the “FNC” key to directly access the function registered for the Favorite Key.

Capacitive Touch Monitor
Capacitive touch monitor provides high clarity and a more sensitive touch control, with greater accuracy.

Gesture Touch Control
Just touch and move your finger over the screen for various operations corresponding to your finger movements. Intuitive control provides safer operation for in-car entertainment.

Wireless Charging Magnetic Car Mount
KS-GC10Q
Compatible with all Qi-certified receiver products, including smartphones and mobile phone covers.
- Secure Magnet
- Rapid Charging
- Safety Features: Foreign Object Detection / Over Temperature Protection / Over Voltage Protection / Overload Protection
- Flexible viewing angles
- Waterproof design
- 1/4” color CMOS sensor with effective 380,000 pixels
- Flexible mounting bracket included
- Camera dimensions (WxHxD): 23.4mm x 23.4mm x 23.9mm
- Weight: 21g (Camera only)

Included Accessories
Suction cup dashboard car mount / Magnet plate / Air vent car mount / Dash mounting plate / Safety strap / USB car charger / USB type-C to type-A cable

Specifications
Input: DC5V/2A, 9V/1.6A
Max Dimensions: 68.0(W)x102.0(H)x24.8(D)mm

[Qi Charger] • Input: DC12V/24V, Output: 5V/3A, 9V/2A, 12V/1.5A QC3.0
Qualcomm® Quick Charge™ is a product of Qualcomm Technologies, Inc.

Compatible with 2-DIN Multimedia Receivers

Qualcomm® Quick Charge™ is a product of Qualcomm Technologies, Inc.

Compatible with 2-DIN Multimedia Receivers
**Waterproof Rating of IPX6** *(KD-MR1BTS)*

Withstands jets of water from any direction thanks to IPX6 waterproof compliance. As a result, the receiver can be safely used not only in cars, but also in other types of water vehicles including marine and motorsports use.

**Rear View Camera Input Support**

KD-MR1BTS and KD-X560BT are equipped with a rear view camera input. With an optional camera connected, you have increased safety while driving UTVs or marine vessels.

**Conformal Coating**

A conformal coating is a protective chemical coating to safeguard electronic circuits from harsh environments that may contain moisture or chemical contaminants. It provides a barrier to airborne contaminants from the operating environment, such as salt-spray, thus preventing corrosion.

**Variable HPF & LPF**

Incorporates a rotary type HPF and LPF which enables fine adjustment. Compared with fixed type switching, more precise sound adjustment is possible to match your preferences.

**Multi-Lighting Options**

- 21 color options
- 21 dynamic modes
- 8 brightness adjustments
- 8 speed adjustments
- 6 pairs maximum can be connected and synchronized

**Included Remote Control**

- RF remote can be used under the sunshine
- Remote Distance: 30m (~98ft)
- No directivity, and rugged design

**Separated Circuit Construction**

Separated circuit boards of the Pre-amp and Power-amp sections contribute to a reduction in radiation noise.

**Waterproof Rating of IPX5** *(KS-DR1004D)*

*Equivalent to IEC standard publication 529 IPX5. Protection against water jets from any direction. Water projected by a nozzle from any direction under stated conditions shall have no harmful effect.*

**Pre-Amplifier Circuit / Power Amplifier Circuit**

Separated circuit boards of the Pre-amp and Power-amp sections contribute to a reduction in radiation noise.

**Variable HPF & LPF**

Incorporates a rotary type HPF and LPF which enables fine adjustment. Compared with fixed type switching, more precise sound adjustment is possible to match your preferences.

**Additional Features**

- **Amazon Alexa Compatible**
  - You can talk to Amazon Alexa on your JVC Receivers. With Alexa Built-in, you can ask to play music, place calls, listen to audiobooks, hear the news, check the weather, control smart home devices, get directions, find parking, and more - all while you keep your hands on the wheel and eyes on the road.

- **Music Sync. with Variable Color**
  - Changes illumination patterns according to the rhythm of the music. Illumination key colors can be preset the way you like.

- **Low Battery Information**
  - When the battery of the connected Bluetooth device runs low, a beep sound is heard and "LOW BATTERY" appear on the receiver.

- **JVC Streaming DJ**
  - Connect up to 5 Bluetooth devices simultaneously. Let you and your friends can take turns streaming music like a DJ. Cue up your hottest playlist and press play!

- **Audio Streaming & Control (A2DP, AVRCP)**
  - With built-in Bluetooth audio, you can listen to and control songs stored on your iPhone or Android smartphone – all wirelessly. High-quality playback can also be achieved with FLAC compatibility that allows digital audio to be compressed in a lossless format. In addition to repeat and random playback of music files, you can also easily search for songs using the browsing function. Just look for and choose the song you want to hear from the folder name and song name lists.

- **Amazon Alexa Key**
  - Changes illumination patterns according to the rhythm of the music. Illumination key colors can be preset the way you like.

JVC Remote:

www.jvc.net/car/app/jvc_remote/

Carbon Mica Cone
Rigid and lightweight carbon mica material provides highly responsive, clear and undistorted sound reproduction.

Balanced Neodymium Tweeter
Provides detailed high range and smooth mid range. Installable vehicle types are greatly increased thanks to its shorter height.

Wide Grille Openings
Grille’s opening ratio is 30% wider than the conventional model, enabling increased durability and clear sound.

Hybrid Surround
Rubber Coated Cloth with increased mobility enables high efficiency and improved follow-up to audio signals.

Small-Design Tweeter Cover
Newly developed small cover significantly reduces areas that interfere with the woofer cone. High-quality sound is assured.

DR Series Speakers | Black Edition | Superior, Reliable Performance

Combines high output sound and durability. Easily upgradable from factory-installed original speakers.

Wireless Remote Control for CD and Digital Media Receivers
RM-RK52
DR Series Speakers

**DR Series 12”/10” Subwoofer - Ultimate Deep Bass Sound & Tough Durability**

Incorporates a heavy-duty 61.4 oz. magnet and a newly developed 6-layer voice coil to deliver bass and outstanding durability.

**Large Magnet for Powerful Bass**

Deep bass is achieved by focusing the speakers output to a lower frequency range than most conventional subwoofers. A large 61.4 oz. magnet helps produce these powerful low frequencies.

**Durable Design**

Heat dissipation and power handling: A newly incorporated 6-layer copper voice coil with aluminum former, improves heat resistance.

**Newly Designed Damper**

The new Graduated Pleat Damper helps prevent stress from affecting specific parts of the damper. This minimizes mechanical damage and dramatically improves the damper’s durability.

Accessories

**Air Purifier**

**KS-GA100**

HEPA Filter with 3-stage filtration / Motion Activated Controls / Portable enough for the car cup holder

- Clean Air Delivery Rate
- Classy-Look Aluminum Body
- Compact Size Fits Easily in Cupholder

Quickly Purify and Deodorize Your Car’s Interior

- A high-speed fan absorbs dirty air from any direction.
- Releases negative ions and deodorizes unpleasant smells in the car.
- A high-performance HEPA filter efficiently collects PM2.5*, pollen, and fine dust, at a particle capture rate of 99.5%.
- *PM2.5 are defined as fine inhalable particles, with diameters that are generally 2.5 micrometers and smaller.

Motion Activated Controls

Easily adjust the wind speed by shaking your hand above the purifier. Shake once to enter low speed mode, then shake again to switch to high speed mode, which deodorizes rapidly. Shaking a third time will turn off the power.

**Main Unit**

- Operating voltage: DC5V
- Power consumption: 1.4W (Normal) / 1.7W (Strong)
- CADR: 4.5CFM (7.7m³/h)
- Diameter: 2-5/8”
- Height: 7-1/16”
- Weight: 0.36kg (0.8lbs)

**USB Car Charger**

- Operating voltage: DC 12V/DC 24V
- USB output: DC 5V/Total 2.4A max.

**Replacement Part (Optional)**

HEPA Filter KS-GA10F

*Accessories: USB-DC Cable (0.7m) x 1, USB Car Charger x 1
